

RIFGC President- Judy Gray's Theme

“Growing Together for a Sustainable Future “

For our organization to be ever changing with the fast pace of life, let's look towards the future with a renewed spirit working towards a foundation that will keep growing and be sustainable for generations.

The benefits are bountiful when we invest in educational and environmental programs with emphasis on greener floral design practices, organic gardening, youth programs, enhancing the connections with our Affiliate Groups, and working on being financially sustainable.

We are the anchor for all that is good in the Ocean State. The opportunities to grow can only be achieved with us growing and working together to be the best.
