Presents

***Foodscaping* with Charlie Nardozzi**

Learn about Edible Landscaping!

Everyone loves to grow their own produce. But many gardeners don't have the space for more gardens (or can protect only a limited area from deer browsing). How can you have edibles and a beautiful yard, too? The answer is Foodscaping.

Foodscaping or Edible Landscaping is a way to have a beautiful landscape and yard and grow some of your favorite vegetables, berries, fruits and herbs. In his presentation, Charlie Nardozzi will discuss places in your yard to grow foodscape plants besides the garden, design principles to make it look beautiful, and some of his favorite edible flowers, veggies, herbs, berries and trees and how to grow them.
